

**6. Develop a LaTeX script to include the side-by-side graphics/pictures/figures in the document by using the subgraph concept.**

```
\documentclass{article}

\usepackage{graphicx} % For including graphics
\usepackage{subfigure} % For subfigures

\begin{document}

    \begin{figure}[htbp]

        \centering

        \subfigure[Subfigure A]{\includegraphics[width=0.45\textwidth]{example-image-a}}

        \hfill

        \subfigure[Subfigure B]{\includegraphics[width=0.45\textwidth]{example-image-b}}

        \caption{Side-by-side subfigures}

        \label{fig:side_by_side}

    \end{figure}

\end{document}
```
